

IMPAX[®] SE: The Innovative PACS solution

Smaller practices can transition smoothly from analog to digital with this comprehensive, full-featured PACS solution.

IMPAX SE is a flexible, scalable PACS solution designed for healthcare providers ready to realize the benefits of PACS. An all-in-one softcopy reading solution, IMPAX SE is simple in design and delivers feature-rich functionality, providing investment performance at a competitive price.

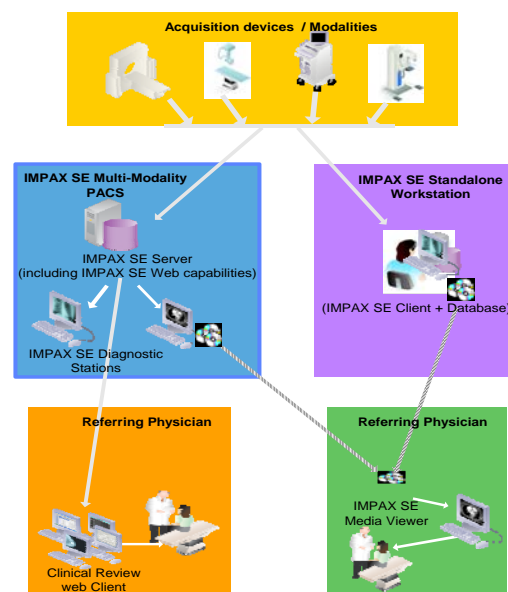

A comprehensive solution for managing medical imaging data, IMPAX SE facilitates the transition from analog to digital, to improve diagnostic confidence, manage rapidly increasing information volumes and increase efficiency and productivity for private practices, small imaging centers, orthopaedic practices and imaging clinics.

IMPAX SE is an innovative, open system that adheres to healthcare IT standards. The user-friendly, customizable interface allows even computer novices to quickly become familiar with IMPAX SE.

As a leading healthcare IT and with over 15 years of PACS knowledge, Agfa HealthCare has the experience to help set benchmarks for implementation and sustained support of your PACS project.

With IMPAX SE you can:

- Accept data from DICOM modalities
- Store images online
- Query images using standard query models
- Retrieve and transmit requested images
- Securely access patient studies via the web using the clinical viewer
- Apply a number of generic and modality-specific tools
- Print images using DICOM printers
- Export images to a CD-R storage, along with an intuitive DICOM viewer
- Load DICOM IHE PDI compliant media *

Key Features
